EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   Month, Year – Present

MicroFlix — This is a TV series website displaying several movies, users can like and comment on a movie. It is an open-source project I built along with another developer. View the repository on Github
  ➔ I created the homepage layout by fetching data from a movie API.
  ➔ I also created the like button functionality which store and fetch data from an involvement API endpoint
  ● Built with: (JavaScript and Webpack)

Budget App — The Budget app is about building a full stack mobile web application where you can manage your budget: you have a list of transactions associated with a category, so that you can see how much money you spent and on what.
  ● Built with: (Ruby-on-rails, Postgresql, Bootstrap 5) View the repository on Github
